

Series 8400 TrueHVLP Conversion Guns

*The 8400 Series Super-Spray® Guns
Provide Unmatched Comfort
with Lightweight Design*

Good things come in small packages. The Apollo 8400 Super-Spray® gun is a full featured compact HVLP production spray gun offering a wide range of options. It is designed in the unique Apollo Tri-Mode™ configuration allowing the spray gun to be used with either a standard bottom style cup, a gravity cup or as a fluid feed production spray gun. Use the 8400 for any task from touch-up to light production. It's feather-light weight reduces operator fatigue resulting in less finishing errors.
